PUBLIC DEFENDER SERVICE CORPORATION ELDER JUSTICE CENTER PROGRAM

PRIORITIZATION OF SERVICES

The Elder Justice Center is required to ensure clients are aware of and acknowledge the Prioritization of Services provision. Guam State Office on Aging (SOA) (DPHSS, DSC) recognizes the unique situation in which the demand for services may outweigh the available resources. Therefore, the following scale shall be used as a guideline to prioritize the provision of services to those in greatest socio-economic need, as necessary and directed by the Guam SOA.

1. Purpose. When demand outweighs resource, the Service Provider shall request from the Guam SOA for the activation of the Prioritization of Services. In addition to the request to activate the Prioritization of Services, the Service Provider shall also state what it would take to address the wait-list to include projected cost to address the wait-list.
2. Need. Based on the need to activate this provision, the number of persons to be served will be determined by the existing conditions at the time of implementation. In the event that the number of available slots is not sufficient to provide services to the number of persons determined, to be at-risk and in need of services, the number of Activities of Daily Living (ADL) impairments will be applied to this distinct group as an additional determining factor as to who will receive services from this program.
3. Procedures. When the Service Provider receives notification from the Guam SOA to activate the application of the Prioritization of Services point system, the entire list of eligible clients shall be ranked. The entire list is defined as all who are receiving services, those on a partial or wait list, as well as new referrals.

Upon receiving approval to proceed with the activation of the Prioritization of Services or is guided by the Guam SOA otherwise, the Service Provider shall act according to the response provided by the Guam SOA.

In the event the decision is to activate the Prioritization of Services, the guide provided will be used to determine of all registered clients in the program, the ranking order of the clients in greatest socio-economic need with the client listed as number 1 being the first client to receive services.

The Prioritization of Services scale will be based on a point system in three (3) focal areas, the older individual's: (1) mobility, (2) degree of existing support system, and (3) housing condition.

Activities of Daily Living (ADL) – The inability to perform one or more of the following six Activities of Daily Living without personal assistance, stand-by assistance, supervision or cues: <i>eating, dressing, bathing, toileting, transferring in and out of bed/chair, and walking.</i>	
Point System	1 point will be added to clients with 1-2 ADL impairments.
	2 points will be added to clients with 3-4 ADL impairments.
	3 points will be added to clients with 5-6 ADL impairments.

Another determining factor in this point system may include whether the older individual is responsible for the care of a dependent. Clients will be given an additional one (1) point if they are also caregivers. Any application of a scale of similar or like form is permissible provided prior authorization is granted by the Guam SOA.

Greatest priority will be given to older individuals in descending order, with nine (9) being the highest possible points garnered translating to the older individual in greatest socio-economic need. After applying the Prioritization of Services (POS) and the demand for services still outweigh the available resources the Service Provider is required to advise the Guam SOA who will provide additional guidance and direction to the Service Provider as to other variables and/or conditions to assess to reduce the demand to meet the available resources. At the time of the initial assessment, clients, to include their caregivers, will be informed that when the prioritization of services is implemented and the client is not determined to be in greatest social and economic need, they would be removed from the program until such time a slot is open and they are identified, after all clients have been re-prioritized, that they are determined to be next qualified to be re-instated into the program.

Point System	Mobility	Support System	Housing Condition
1	Cane or Walker	Support available; but not living in same household	Full concrete structure
2	Wheelchair users	Minimal support; but not regularly available	Semi-concrete structure
3	Homebound and bedridden	No support system in place	Tin and wood structure

4. The catalyst for the POS to be activated by the Guam SOA is dependent on the Guam SOA receiving official notification from the Service Provider that all vacancies are filled, there are no funds available for reprogramming to address the waitlist, and there are clients on the wait list for over 30 calendar days. The Service Provider is required to provide notification and state the cost to provide services to those on the waitlist and partial services list as well as the cost to provide services to additional clients for the remainder of the contract year.
5. When the Service Provider receives notification from the Guam SOA to activate the application of the Prioritization of Services (POS) point system, the entire list of eligible clients shall be ranked. The entire list is defined as all who are receiving services, those on a partial or waiting list, as well as new referrals. The Service Provider is required to advise all Legal Assistance Services (LAS) clients of this provision prior to the provision of services which is to be documented in each case file.

In the event the Service Provider implements the POS absent the notification from the Guam SOA, the Service Provider's Monthly Program Invoice (MPI) shall be reduced by 25% for non-compliance with this provision of the agreement.
